# Perfectly adaptable to any space

AQUA's professional laundry equipment can be perfectly suited in any business field.

## Self-service laundry

## Collaboration across industries

Stronger together

## The condominium's shared laundry.

Integrating laundry solutions with the building's facilities

feel AQUA technology

AQUA build reliability into every product, ensuring long-lasting performance.

### AI Technology

#### G sensor

The G sensor detects abnormal drum vibration during spin, controlling speed to prevent collisions with the frame.

### Safety Design

#### Abnormal vibration detection system

If an abnormality occurs during operation, the detection switch activates and safely forces the system to stop, ensuring safety around the equipment.

### Minimizes Maintenance Needs

#### Smart drainage

The large diameter drain valve reduces the risk of clogging and shortens draining time.

#### Maintenance-free (Bearings)

A pair of NSK bearings with triple-layer oil seals that do not require grease replacement are used to ensure maintenance-free operation.

## Washer & Dryer Combo

HWD-7277GC

HWD-7177GC

		HWD-7277GC	HWD-7177GC
Capacity	Wash	27kg	17kg
	Dry	16kg	10kg
Rated power		220 • 230 • 240V, 1/3 Phase	
Frequency		50/60Hz	
Tub volume		271L	172L
Product size (mm)		1,003 × 1,209 × 1,976	855 × 1,202 × 1,822
